Math: Math K-12

Explanatory Notes

¹User norms are based on the group of students who have taken the test in the selected subject and course. These results are not comparable to results based on nationally representative norms.

* Summaries for groups of fewer than 10 students are not shown, as the sample size may be too small for acceptable statistical reliability.

** Calculations not provided because students have no MAP results in at least one of the terms. The Growth Count is zero.

[‡]Growth Count provided reflects students with MAP results in both the Start and End terms. Observed Growth calculation is based on that student data.
